
Dr. Boniface Mgonja

Treasurer, Canadian Association of Tanzanian Professionals (CATP)

Boniface Mgonja has over 13 years in training, research and consultancy in public/private sector governance with international organizations around the world and specifically in Canada, Tanzania, and Japan. He is also an expert in institutional analysis, systems strengthening, performance management, corporate strategic planning, organization development, change management, risk management, monitoring & evaluation, public policy analysis, business analysis/intelligence, organizational restructuring, right sizing and quality management systems.

In addition to his teaching career at various academic institutions, Mgonja was part of major programs in Tanzania such as the Benjamin William Mkapa HIV/AIDS Foundation (BMAF) where he led the monitoring and evaluation expert team for two major projects; the Tanzania Human Resource Capacity Project (Funded by USAID) and Health Systems Strengthening Project (Funded by The Global Fund).

Mgonja holds a Doctor of Philosophy (PhD) degree with research focus on Governance, Policy & Institutions from the University of Alberta in Canada, a Master's degree in Governance, Public Policy & Management from Meiji University in Japan, and an Advanced Diploma in Public Administration from the Institute of Development Management, Mzumbe, Tanzania.
